## PREFACE

This summary report lists the NPIC intelligence  
25X1D targets imaged on [REDACTED] photography.

Items are arranged in three sections.

The "SUMMARY" section provides short descriptions  
for newly identified targets and previously reported targets  
showing change, and also provides order of battle  
information.

The "NAC" section provides a listing of those targets  
which reflect no apparent change in facilities from the  
most adequate previous description. The summary in  
which this description appears is designated by the appropriate  
mission number, prefixed by the letters NAC and appearing on the photo reference line. Military  
installations where there is no significant change in facilities and where no order of battle can be determined  
are listed under this section.

The "ID" section provides a listing of those targets  
which could be identified but not interpreted.

If the publication contains no summary, or NAC, or  
ID targets, the appropriate section is omitted.

Targets in each section are arranged 1) by country,  
2) within the country according to subject, 3) within the  
subject by WAC area, and 4) within the WAC area by

geographic coordinates in ascending order. An explanation  
of column headings and photo references used in presenting  
the information is contained in the appendix. The map base used (when available) for the derivation of  
coordinates in this summary is the latest and applicable  
edition of the AMS series L509, scale 1/250,000, L701  
and L7012, scale 1/50,000, and the ATC series 200, scale  
1/200,000.

The user of this summary is cautioned that the scan  
of photography was accomplished in a relatively short  
time and often without the aid of precise analytical and  
mensural techniques commonly employed in detailed photographic  
analysis. Consequently, although the information presented  
herein is essentially accurate, additional, detailed analysis may somewhat alter portions of the information.

AAA defenses are divided into three categories: light  
(ZPU-1, ZPU-2, ZPU-4, 37MM), medium (57MM, 85MM),  
and heavy (100MM and larger). The term HMGAA (heavy  
machine gun antiaircraft) indicates a weapon smaller than  
a ZPU-1. Where a category cannot be determined, the site  
will be listed as an AAA site and the number of guns indicated  
(example: 6-gun AAA site, occupied/unoccupied).

## SECTION II

THIS SECTION PROVIDES A LISTING OF THOSE TARGETS WHICH REFLECT NO APPARENT CHANGE IN FACILITIES FROM THE MOST ADEQUATE PREVIOUS DESCRIPTION. THE MCI IN WHICH THIS DESCRIPTION APPEARS IS DESIGNATED BY THE APPROPRIATE MISSION NUMBER, PREFIXED BY THE LETTERS "NAC" AND APPEARING AS THE LAST ENTRY ON THE PHOTO REFERENCE LINE. MILITARY INSTALLATIONS WHERE THERE IS NO SIGNIFICANT CHANGE IN FACILITIES AND WHERE NO ORDER OF BATTLE CAN BE DETERMINED ARE LISTED UNDER THIS SECTION.
